# ANNUAL REPORT

OF THE

# STATE AUDITOR

FOR THE

FISCAL YEAR ENDING NOVEMBER 30, 1890.

---

STATE OF NORTH CAROLINA,
AUDITOR'S DEPARTMENT,
*Raleigh*, January 2d, 1891.

*To His Excellency* DANIEL G. FOWLE,
*Governor of North Carolina.*

SIR:—I have the honor, in compliance with the law, herewith to transmit the annual report of this Department for the fiscal year ending November 30th, 1890, together with tabulated statements concerning matters relative to this Department.

The balance in the hands of the State Treasurer at the close of the fiscal year was, as will be seen from the General Statement at the opening of this report, as follows: Of the Public Fund, in round numbers, $136,000, and of the Education Fund $26,000.

The normal balance was restored to the Public Fund by the restoration of the tax rate to 25 cents instead of 20 cents.

The balance to credit of the Education Fund is largely due to the sale of "Durant's Island" and "Simmons' Bay" by the State Board of Education.

It will be remembered that out of the balance to the credit of the Public Fund must be paid the sum of $88,625.75, amount of pension warrants issued on the 1st of December, 1890.

Your attention is specially directed to explanatory notes to Statements H and I. Your attention is also called to Statement J, which shows, approximately, the amount of property tax for public schools paid by white and colored citizens. More accurate information on this point is demanded each year.

There is a decided increase in the mileage of railroads in the State, and also in the value of property, as will be seen from Statement O and the recapitulation on page 229. This recapitulation also shows a handsome increase in the value of town lots throughout the State.

It will be noticed that there is no statement in this report as to the value of property or taxes of Mitchell County. The returns were received and returned for correction as to the pension tax. The fact has been developed that, while the full levy for State and County purposes, as authorized by law, was made and collected, no part thereof was set apart on the tax lists for pension purposes. We have not been able to secure the corrected returns on account of such action on the part of said Commissioners, though repeated and strenuous efforts have been made to that end.

The Legislature of 1889 repealed the pension law of 1885, as amended by the law of 1887, and substituted for it an entirely new law. Instead of a fixed sum of $30,000 being divided out among the pensioners, as under the old law, provision is now made, under section 17 of the new law, for a pension fund, as follows: "That a tax of three cents on one hundred dollars value of real and personal property of this State, and moneys, credits, investments in bonds, stocks, joint stock companies or otherwise, and also a tax of nine cents on each taxable poll or male between the ages of twenty-one and fifty years, except the poor and infirm whom the county commissioners may declare and accord fit subjects for exemption, shall be and are hereby, levied to be applied to the special object of paying the pensions provided for in this act, and to no other purpose." I am glad to be able to report

that this tax has been, so far as I can learn, cheerfully paid by every county, company and person throughout the State upon which or whom it was laid except, as has been previously stated, the County of Mitchell. This county did not lay either the capitation or property tax called for by law, and the same has not been paid to date, although efforts have been made on my part, seconded by the State Treasurer and Attorney General, to secure its payment. The State Board of Pensions, in accordance with the provision of section 16 of the present pension law, adopted certain rules and regulations for the guidance of applicants for pensions and County Boards of Pensions, one of which (section 10) reads as follows: "No application will be audited, or pension paid, to any applicant who resides in a county where the county authorities, charged with the duty, have failed or refused to levy or collect the taxes imposed by the General Assembly; and where there has been a partial neglect or failure in that respect the amount paid out will be diminished in proportion." Under this ruling, the pension warrants for Mitchell County, though duly made out, are, and will be, withheld until that county shall have complied with the requirements of the pension law in the premises. The State Board of Pensions would like to have its duty in an emergency like this clearly defined by special enactment by the Legislature, soon to assemble. It is but fair to state that the Commissioners of Mitchell County claim not to have been acquainted with the provisions of the law requiring the levying of the tax, and further, they have levied and collected a tax for 1891. There are now upon the pension roll, as made up under the provisions of this law, 4,054 pensioners, classified, according to the requirement of section 1 of the law, as follows: Pensioners of the first class, 46; pensioners of the second class, 231; pensioners of the third class, 339; pensioners of the fourth class (soldiers), 915; pensioners of the fourth class (widows), 2,523. The amount paid out in full is $88,625.75, leaving a small sum in the Treasury to

meet necessary expenses in carrying out the law. [N. B. The addition of a few names to this list since the oral statement made by me to your Excellency and incorporated in your message to the Legislature, is occasioned by the approval since then by the State Board of Pensions of some claims that were being held for further information, this information having been furnished and endorsed as satisfactory.] Numerous difficulties have arisen in putting the new pension law into practical operation. The most notable of these is that relating to the construction of the word "indigent" in the term "indigent widows," in section 1 of the law as passed. The State Board of Pensions placed its construction upon the term and issued instructions accordingly, and this Department has been governed by this construction. Considerable complaint having arisen in regard to the same, I would suggest that your Excellency recommend to the Legislature, soon to convene, that this matter be settled once for all by a special enactment, either striking out the word "indigent" (which was inserted as an amendment immediately before the final passage of the bill), thus leaving the law as it originally came from the hands of the committee, or else clearly defining the intent and scope of the word "indigent" as it occurs in section 1, chapter 198, Laws of 1889. Another difficulty grows out of the want of thorough examination into the claims of applicants, and the haste with which applications are passed upon by many of the County Boards of Pensions. Severe criticism is indulged in by many private citizens, whose letters are on file in this office, with regard to the lists of pensioners in their counties as finally made up by the State Board of Pensions. Allegations are made that the names of certain parties should not appear on the pension roll, because they are debarred by a property disqualification, or their disability by reason of "wounds received" is not sufficient to constitute a claim for pension, etc. The State Board has to depend on the County Boards for its information in passing upon these claims, and the County Boards fail often in securing

this information themselves, because they act on so many applications in one day, without time to thoroughly acquaint themselves with the merits of each individual claim, or for other similar cause. I would suggest: (1) The creation of an Advisory Pension Board in each county, consisting of three or five members, to be chosen from among themselves, of the County Confederate Veterans' Association, where such an Association exists, or, otherwise, of three or five ex-Confederate soldiers, to be selected by the State Board of Pensions. The County Board of Pensions shall receive applications for pensions at its regular meeting each month and refer the same at once to the Advisory Board for investigation. The Advisory Board shall investigate each pension claim thoroughly, and submit a report on the same at the next regular meeting of the County Board of Pensions, and the County Board shall then take action upon the same in the light of the information thus obtained from the Advisory Board, and of such information as its own members have been able to obtain during the month the claims have been under consideration. The State Auditor shall furnish the Advisory Board of each county with blanks for making out its report. It is hoped that this Advisory Board of old soldiers will be willing to serve without charge for the good they may be able to do in the promotion of the end sought to be gained by the pension law, but in the event a charge is made for services it shall be paid upon warrant of the State Auditor, by order of the County Board of Pensions, out of the pension fund, provided it do not amount in any one month to more than the per diem for one day of a county commissioner, for each member of the Advisory Board so paid, and the number of members so paid each month to be dependent on services rendered. (2.) Inasmuch as the making up of the present pension roll, involving, as it has done, the consideration by the Auditor and State Board of Pensions of nearly 5,000 applications in a comparatively short

length of time, may have led to placing on the pension roll the names of persons not entitled to be there, power should be vested in the State Board of Pensions to refer the applications already filed in the Auditor's Office, in whole or in part, of any County, to the County Advisory Board as above constituted, to be proceeded with as in the case of applications when first presented, with the exception that new applications will not be required. This will necessitate a change in section 6 of the pension law. The same section ought also to be amended so that the list of pensioners of each county shall be submitted to the County Advisory Board to be passed upon annually by them, they to give the certificate now required by the Clerk of the Superior Court, and the Clerk to forward the same to the Auditor, under the seal of his office, as at present. I think it well for the Legislature to determine explicitly, by an amendment to the pension law, what disposition shall be made of warrants issued to pensioners whose names appear on this list and are certified to as being alive at the time the list is sent in, but who die, without knowledge of the Auditor, before the time of issuing warrants. I would suggest that the law allow these warrants to be paid to the legal representatives of the deceased pensioners to defray funeral and other expenses incurred in connection with their sickness and death, instead of being returned to the Auditor for cancellation, as heretofore. This seems eminently proper, as the claims of such pensioners are considered and provided for when the corrected lists are returned from the counties.

I cannot too strongly urge upon your Excellency to recommend that special legislation in the matter of the payment of pensions shall be strenuously resisted. The general pension law provides for all pensioners upon the basis of certain classifications, and all pensioners should be paid upon the basis of these classifications, according to their class, or else the classifications should be changed. No special law should

allow to any one pensioner properly belonging to a certain class or grade any larger pension than others of that class or grade receive. And I deem it peculiarly advisable that no persons shall, by any special legislation, be admitted to the privileges provided for in The Code, volume 2, chapter 45, sections 3476 to 3479, except such as rightly and fully belong to the class or classes of pensioners therein provided for as set forth in section 3477. It might be well to amend section 3479 so that applicants of this class shall present their applications before the County Advisory Board of Pensions above referred to for examination and approval, their report, if favorable, to be forwarded by the Clerk of the Superior Court, under his seal of office, to the Governor, and the Auditor to issue warrants upon the approval of this report by the Governor.

There are other recommendations that might be presented for consideration by the next General Assembly, but opportunity may be given for their presentation before a committee constituted to inquire into and report upon this whole subject of pension legislation, and I will defer them until then. I will simply add that pension legislation has become an important part of the business of our State Legislature. The list of pensioners has grown to be quite large. The sum to be disbursed annually now reaches close on to one hundred thousand dollars, and the question of how best and most expeditiously and economically to distribute this fund so that exact and full justice shall be done to all who are intended to be its beneficiaries is one worthy of most thoughtful consideration on the part of the representatives of the people in the General Assembly.

So great and widespread has the interest become in regard to the resources of our State, its financial and material status, etc., that larger demands are made from all sections of the Union for copies of the Auditor's report than I am able to supply under the present law. Section 3646 of The

Code provides that the Auditor shall have one hundred copies of his report printed for the use of his office. I ask that this law be amended so as to allow the printing and binding of two hundred copies.

I have the honor to be,
with very great respect,
your obedient servant,
G. W. SANDERLIN,
*State Auditor.*
